CAREER OBJECTIVE

Self-motivated and enthusiastic Software Developer with a solid foundation in Python and C. Passionate computer application graduate seeking an entry-level software engineering position to leverage programming skills and contribute to innovative technology solutions

EDUCATION

Master of Computer Applications, 2024 – 2026
Rathinam Technial Campus Coimbatore

Bachelor of Computer Applications, 2021 – 2024
The American College Madurai

PROJECTS

Cloud Cost Monitoring and Optimization Tool, A Flask and AWS-Based Cost Monitoring System

- Developed a cloud financial management tool using **Python (Boto3)** and **Flask** to track real-time **AWS** resource usage.
- Implemented cost-estimation logic to identify idle instances and underutilized services, helping in resource optimization.
- Utilized AWS APIs to collect metrics from compute, storage, and serverless resources for accurate spending forecasts.

Conventional Planner Festive Frolics

- A web-based platform designed for hassle-free event management by providing a centralized booking system for Marriage Halls, Decorations, Catering, Videography & Photography, and Orchestra (MOI Soft) services.
- The system improves coordination and saves time by allowing users to plan and book multiple event services in one place.

SKILLS

- **Programming Languages:** C, Basic Python, Java (Basic), C++
- **Frontend Technologies:** HTML, CSS, JavaScript
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures (Basic)
- **Tools & IDEs:** Visual Studio Code, Code Blocks, Vim Editor, ESP32 Microcontroller

SOFT SKILLS

- **Soft Skills:** Logical Thinking, Team Collaboration, Quick Learner.
- **Interests:** Hosting Podcasts, Reading Books, Learning new Software Industry trends.

CERTIFICATES

- **C and C++ Programming:** Certified by SSI Technology.
- Preparing for IEEE-style paper publication on **Hardware Security**.
